

Name: _____
4th Grade HW 6.5A Division Basic Steps

Divide using long division steps. Do all work on separate paper.

1.) $7 \div 1$

2.) $5 \div 5$

3.) $8 \div 2$

4.) $6 \div 2$

5.) $2 \div 2$

Flashcards 6.5A: Term on one side, definition and example labeled on other side; number and name on each card (see the example).

Make one flashcard each (4) for: steps of division (no example), quotient, dividend, divisor (for the last three, write both ways of doing division and label just the **one** term for that card).
