

Name: Key

4th Grade Notes 5.7 Multiply Three-Digit Numbers

Same steps as multiplying two-digit numbers, except you have to multiply the hundreds place by each number.

**Keep things lined up !!! (always mult. ones first, then go left)

$$\begin{array}{r} 44 \\ 58 \\ \text{Ex: } 567 \\ \quad \times 78 \\ \hline 4536 \\ +39690 \\ \hline 44,226 \end{array}$$
